

H1N1 Vaccine Clinic

The Lincoln Co Health Dept will be providing a 2009 H1N1 nasal spray flu vaccine clinic for healthy children and adolescents from 1-4 pm on Wed, Oct 28 at the Troy Senior Center. Children younger than 10 yrs of age will need a second dose, spaced 3-4 wks apart and a second clinic is planned at the same location in Troy for Wed, Nov 18 from 1-4 pm.

The Health Dept will also hold another 2009 H1N1 clinic on Thurs, Nov 19 from 3-6pm at the Libby Senior Center. This is a follow up clinic for children under 10 yrs old who received their nasal spray on Wed, Oct 21. We hope to have additional mist for healthy people 2-49 yrs of age. We may also have injectable vaccinations for those over 50 yrs of age or those with chronic health problems. However, we will have to confirm what will be available for that date when we receive it. Please keep an eye on the paper and the Lincoln County website (www.lincolncountymt.us) for future updates.
